

Introducing NEO Pro 5.0 from Caelo Software

Outlook the way it should be!

All the features you need to solve your email overload

Also spending too much time on your emails?

Too many hours are wasted each day dealing with too many unimportant emails. Prioritizing, filing and dealing with messages – most of it is of little added value.

NEO Pro now automatically organizes your emails as they come in – so you don't have to. You can now focus on those emails that really matter and leave the rest to NEO Pro.

Need to find a message? It's a breeze using NEO Pro's automatic Virtual Folder structure and lightning fast indexed Search facility. Never without your messages anymore – they are at your fingertips all the time.

Exactly how it should be!

A major breakthrough in email productivity

Caelo Software not only provides the necessary technology to truly solve your email overload. Combining NEO Pro with the best time-management workflow principles will revolutionize your daily email activities. Saving up to 2 hours per day – reducing your email related stress levels with on average 50% – and keeping you better than ever in control over your emails.

This Email Efficiency Support, to help you get the maximum out of your NEO Pro, is now provided free of charge on www.emailorganizer.com.

"This is how Outlook should have been designed."

What's new in NEO Pro 5.0

The latest NEO Pro version provides full Conversation View helping you to keep better track of your messages. Simply expand an email thread to find all related messages. Filing or categorizing a conversation will do so for all underlying messages saving you time and helping you to keep messages organized easily.

Further it is now possible to add personal notes to individual messages for future reference. For quick and easy access all messages with a note are organized in a single Noted folder.

NEO Pro 5.0 comes with a fully redesigned User Interface offering a new clean look with the familiar and user-friendly Ribbon toolbar. As not everyone may appreciate the Ribbon interface, NEO Pro offers a unique option to switch back to the original toolbars.

Application Notes and Online Email Training to complement Technology

To improve your email efficiency, Caelo Software offers a series of Application Notes and an Online Email Training. The Application Notes and Online Email Training can be found on the Knowledge Base section of our website: <http://www.emailorganizer.com/kb/kb.php>.

New User Interface: Ribbon or traditional Toolbars

Easy and familiar Ribbon interface or the original toolbars (*optional*).

Conversation View showing email threads

Simply expand a conversation to find all related messages.

NEO Pro's patented email organization

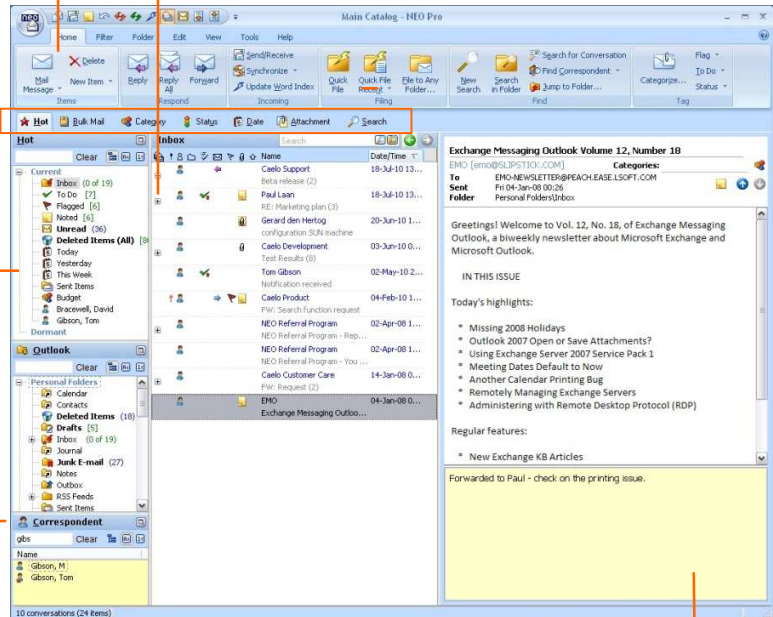

Browse the different tabs to see many helpful ways in which your emails are organized.

Hot view

Your most frequently used folders at your fingertips.

Finding emails never has been easier

Select the correspondent you are looking for and all your emails are there. You can search through these folders or set a filter to zoom in on your messages.

Annotation feature to keep notes on emails

Keep your thoughts with your messages for easy reference.
